Printed by Universal Printers Ltd. by authority A. R. Shearer, Government Printer, Wellington, New Zealand.

CONTENTS, VOLUME 8

Abrahamson, J. P. *see* **Wright, D. S. C.** 326

Baylis, G. T. S. *see* **Wardle, P.** 3

Beuzenberg, E. J. Contributions to a chromosome atlas of the New Zealand flora 14. *Uncinia* (Cyperaceae) 260

Bliss, L. C. *see* **Mark, A.** 381

Brockie, W. B. Artificial hybridisation in *Epilobium* involving New Zealand, European, and North American species 94

Connor, H. E. *see* **Molloy, B. P. J.** 132

Drury, D. G. A fresh approach to the classification of the genus *Gnaphalium* with particular reference to the species present in New Zealand 222

Evans, P. S. Root growth of *Lolium perenne* 1. Effect of plant age, seed weight, and nutrient concentration on root weight, length, and number of apices 344

Fowler, M. New Zealand predacious fungi 283

Gadgil, P. D. Survival of *Dothistroma pini* on fallen needles of *Pinus radiata* 303

Hair, J. B. Contributions to a chromosome atlas of the New Zealand flora 13. *Parahebe* and *Pygmea* (Scrophulariaceae) 255

Harris, W. Genecological aspects of flowering and vegetative reproduction in *Rumex acetosella* 99

Harris, W. Yield and habit of New Zealand populations of *Rumex acetosella* at three altitudes in Canterbury 114

Hughes, S. J. New Zealand fungi 14. *Antennaria, Antennularia, Antennatula, Hyphosoma, Hormisciella,* and *Capnobotrys* gen. nov. 153

Laundon, G. F. Additions to the rust fungi of New Zealand 5 310

Laundon, G. F. Records of fungal plant diseases in New Zealand 51

McNabb, R. F. R. A record of *Gomphidius maculatus* (Agaricales) in New Zealand 320

Mark, A. F. Floral initiation and development in New Zealand alpine plants 67

Mark, A. F. *see* **Wardle, P.** 3

Mark, A. F. *see* **Wardle, P.** 22

Mark, A. and **Bliss, L.** . The high-alpine vegetation of Central Otago, New Zealand 381

Menalda, P. H. *see* **Scott, D.** 82

Menalda, P. H. *see* **Scott, D.** 361

Moar, N. T. Recent pollen spectra from three localities in the South Island, New Zealand 210

Molloy, B. P. J. and **Connor, H. E.** Seedling growth in four species of *Chionochloa* (Gramineae) 132

Orwin, J. Lichen succession on recently deposited rocks surfaces 452

Parris, B. S. *see* **Peterson, P. J.** 647

Peterson, P. J. and **Parris, B. S.** An analysis of amino acids in the New Zealand species of *Doodia* (Blechnaceae) 647

Rowley, J. Effects of burning and clipping on temperature, growth, and flowering of narrow-leaved snow tussock 264

Rowley, J. Lysimeter and interception studies in narrow-leaved snow tussock grassland 478
Rowley, J. A. *see* **Scott, D.** 82

Scott, D. CO_2 exchange of plants 3. Temperature acclimatisation of three species 369
Scott, D. Comparison between lodgepole pine and mountain beech in establishment and CO_2 exchange 357
Scott, D. Relative growth rates under controlled temperatures of some New Zealand indigenous and introduced grasses 76
Scott, D. and **Menalda, P. H.** CO_2 exchange of plants 2. Response of six species to temperature and light intensity 361
Scott, D., Menalda, P. H., and **Rowley, J. A.** CO_2 exchange of plants 1. Technique, and response of seven species to light intensity 82
Scott, G. A. M. Vegetation studies on Secretary Island, Fiordland Part 11. Epiphytic and ground cryptogamic vegetation on the northern slopes 30
Sheridan, J. E. and **Yen, Chea Chark.** A note on the effect of temperature and relative humidity on the germination of conidia of a New Zealand isolate of *Dothistroma pini* Hulbary 658
Sykes, W. R. *Ipomoea pes-caprae* (L.) R.Br.spp. *brasiliensis* (L.) Ooststr. in the New Zealand botanical region 249

Wardle, J. The ecology of *Nothofagus solandri*
1. The distribution and relationship with other major forest and shrub species 494
2. The associations 532
3. Regeneration 571
4. Growth, and general discussion to Parts 1 to 4 609

Wardle, P. and **Mark, A. F.** Vegetation studies on Secretary Island, Fiordland Part 10. Vascular plants recorded from Secretary Island 22
Wardle, P., Mark, A. F., and **Baylis, G. T. S.** Vegetation studies on Secretary Island, Fiordland Part 9. Additions to Parts 1, 2, 4, and 6 3
Wright, D. S. C. and **Abrahamson, J. P.** Electron microscopic study of *Verticillium dahliae* Kleb. as a pathogen of tobacco (*Nicotiana tabacum* L.) 326

Yen, Chea Chark *see* **Sheridan, J. E.** 658

Zotov, V. D. *Chionochloa macra* (Gramineae): a new species 91
